Date of issue: Date of expiry: Source: Original Passport 533388446

UNITED KINGDOM -BRITISH CITIZEN

11 Nov 2015 11 Nov 2025 Australia

Client visa details

Visa: BS 801 Spouse (Permanent)

Instructions to the client

Please proceed to make an appointment to undergo the required immigration health examinations listed in this letter with an approved panel physician if you are outside Australia **or** the Department of Immigration and Border Protection (DIBP)'s migration medical service provider if you are in Australia. You may also subsequently be referred to a specialist for additional health examinations. Specific requirements for arranging your health examination are explained on DIBP's website at http://www.border.gov.au/Trav/Visa/Heal/Meeting-the-health-requirement/Arranging-a-health-examination.

If an examination is listed as Completed this means that there is an existing examination that can be re-used for this visa application. You will not be asked to complete this examination again unless a repeat examination is required because your medical circumstances have changed or the examination has since expired. More information about when the department allows re-use is available at www.border.gov.au/Trav/Visa/Heal/meeting-the-healthrequirement/arranging-a-health-examination. If you believe that you have additional examinations for re-use contact your case officer before you attend your appointment.

When making your appointment, please provide the clinic with your health identifying number (HAP ID) indicated at the top of this letter. Please also make sure that you bring with you to your appointment:

- this referral letter
- your prescription spectacles or contact lenses, if applicable
- existing specialist and/or other relevant medical reports for known medical conditions
- any previous chest x-rays
- a valid passport OR an agreed form of alternative documentation to confirm your identity.

Note: a copy of any health information that you have already provided to DIBP online is included below for your information. This information will also assist staff at the panel clinic that you select to visit.

Examinations required for this visa application
